## EDUCATION

Minerva University

Bachelor of Science in Computer Science and Artificial Intelligence

San Francisco, CA

## WORK EXPERIENCE

Co-founder and Full Stack Developer

StylesGo LLC

San Francisco, CA

May–Sep 2025

- Developed **full-stack mobile and web application** in **Flutter** with **Firebase** and **Riverpod** for barbershop services with **real-time booking**, **payment processing**, and **user management**.
- Built comprehensive payment infrastructure using **Stripe API** and **Firebase Cloud Functions**, including **saved cards**, **store credits system with expiration tracking**, and **refund management**.
- Implemented **push notifications** using **Firebase Cloud Messaging** for appointment reminders and updates.
- Deployed both **Barber** (iOS and Android) and **User** ([iOS](#) and [Android](#)) production apps along with [web app](#), managing **Android Gradle builds** and **iOS configurations**.

Co-founder and Full Stack Developer

Endlexx.com

Zaria, Nigeria

Feb–Aug 2024

- Built and launched endlexx.com marketplace using **MongoDB**, **Express**, **React**, and **Node.js (MERN) Stack** attracting 200+ users in the first month, increasing online transactions rate by 20%.
- Boosted website speed by over 50% by implementing **Lazy Loading** and **Service Worker API** to sustain over 1000 active users.
- Developed real-time chat and notification system using **WebSocket API**, increasing user engagement by 30% and user interaction by 60%.
- Implemented robust payment system using **Paystack API** that processed over **₦10M (~\$6,000)**.
- Applied **React Hooks**, **Reducer API**, and **Context API** to build scalable website, improving component reusability by 40% and optimizing global state management for faster load times by 25%.

## PROJECTS

[Inksync](#) | React, Node.js, TypeScript, PostgreSQL, Google Gemini API

- Developed an **AI-powered web application** for writers and researchers that enables **intelligent document analysis**, **agent-based exploration**, and **advanced information retrieval**.
- Built responsive UI with **Shadcn UI**, **Tailwind CSS**, and **Framer Motion** for seamless user experience across devices.
- Designed backend architecture using **Node.js (Express)**, **Drizzle ORM**, and **PostgreSQL** hosted on **Neon** for high performance and scalability.
